

Introducing EZYield V3!

The newest version of EZYield is the most technologically advanced channel management solution in the industry.

V3 allows you to yield YOUR way. It includes a host of innovative options that no other channel management program can provide.

V3 Classic

- * Unlimited date ranges in “Classic View” including Day of the Week functionality
- * Companion is much faster, and reports can now be exported into PDF format
- * Individual Management of users – designate a level of permission for each user
- * New look with vivid colors and a sharper design

For those of you in need of more complex yielding solutions, EZYield offers upgrade packages to customize your account, such as:

V3 Essentials

- * Room Differentials – users may differentiate room prices off of one “base” room
- * Global Allotments – assign certain percentage of rooms allocated to individual sites
- * Red Arrows – fast way to copy data up, down, left and right
- * Ability to arrange list of room types in a specific order that fits your needs

V3 Views

- * Calendar View
- * List View
- * Customize each view by itemizing specifics

V3 Companion Yielding

- * Edit and make changes directly from your report
- * Perfect for users performing multiple updates on a daily basis
